

Introducing the KONE Spares Escalator RENUIT™ Program

- ★ Rejuvenate your existing escalator with complete refurbishment packages
- ★ Enhance the visual profile of your building with a complete new appearance
- ★ Upgrade old components
- ★ Improve reliability and enhance safety
- ★ Turn your aging equipment into an efficient, well-tuned machine

KONE HR Model

KONE Spares is now able to offer RENUIT™ packages targeted to the older KONE escalators running in your building.

Through the RENUIT™ program we will work with you to provide upgrade and refurbishment packages that pace your budget while renewing, enhancing and extending the life of your current escalator.

The RENUIT™ program will support full replacement of equipment with tear down to the truss, or selectively replacing and upgrading vital components on a programmed schedule.
